

Technical Specifications – Hermetically Sealed Distribution Transformer

Feature	Details
Capacity Range	50 kVA to 1600 kVA
Primary Voltage	Up to 36 kV
Secondary Voltage	400V, 415V, 433V (Standard)
Cooling Method	ONAN (Oil Natural Air Natural)
Tank Type	Corrugated / Elastic Fin (Hermetically Sealed)
Standard Finish	Premium Corrosion-Resistant Powder Coating (Custom Colors Available)
Safety Features	Thermometer Pockets, Pressure Relief Devices, Oil Level Indicators
